METALING IN MID CENTURY MODERN

Toro™ is paving the way in the metal cabinet market as we work with design professionals from across the country to create unique projects. From kitchens to bowling alleys, laundry rooms to bathrooms, we are doing it all. Inspired by metal cabinets of the mid-century atomic boom when kitchens across the nation were being fitted with metal cabinets powder coated in a variety of patriotic and pastel colors. Toro™ has created cabinetry for a more progressive audience, a discerning group who craves all of the modern conveniences of today with something special that sets them apart.

Using a modular approach, the cabinets are pre-engineered in 3" increments in over 160 sizes. They feature solid wood construction, dovetail drawer boxes, modern German soft-close hardware, an 18-gauge galvanized steel door powder-coated to any RAL color, and an array of handles and legs to choose from. Each configuration of Toro™ cabinets allow clients to express their individuality. From retro to contemporary and everything in-between, you can let your personality shine through.

We can't wait to work with you and see how you create with Toro™

Sincerely,

Avi

Avi Gordon

80 Pantry
92 Trash Bins
96 Micro & Fridge
106 Panels & Fillers

All-Wood Box Construction

The foundation of the Toro™ line is the cabinet boxes. Expertly constructed and hand-stained 3/4 inch all-wood cabinets offer premium durability and maximum weight support perfect for specialty counter-tops like granite or concrete. The wood box and metal door combo give the Toro™ lineup the retro modern feel it's known for. Choose from one of four color options to complement or contrast your door color.

Crafted To Perfection

The metal doors are the crown jewel of Toro™'s design. Each door was artistically designed and expertly crafted from 18-gauge galvanized steel with a 16-gauge brushed aluminum back. The door is a sandwich construction with a precisely cut plywood core for a secure and exacting assembly of all hardware components.

For a smooth look and a soft feel, the corners of every door are rounded and polished to create a stylized and iconic look unique to Toro™ kitchens. Once the doors for your kitchen are manufactured, off they go to powder coating where you can choose from hundreds of colors. Whether subtle or bold, whatever your style, there is a color out there for you!

Live In Color

EachToro™kitchenisunique.Thereareendlesscombinationstochoosefrom.Aftermanufacturing, the doors are painted with a high-quality powder-coated finish of your choosing that gives the door a durable and personalized coating unlike any other cabinet on the market. Choose from a pre-formulated color palette including hundreds of RAL hues from classic red to seafoam green and everything in-between. Color swatches available upon request.

You'll Feel The Difference

With some of the best hinges and drawer slides on the market, Toro™ Kitchen Cabinets are anything but old-school. Standard wooden drawer boxes are crafted with dovetail corners and all door and drawer slides are German engineered for smooth gliding, full extension, and soft-close. Toro™ and Blummotion hardware is where quality engineering and art meet. So, even if your color choice is loud… your kitchen cabinets won't be.

BLIND WALL 24

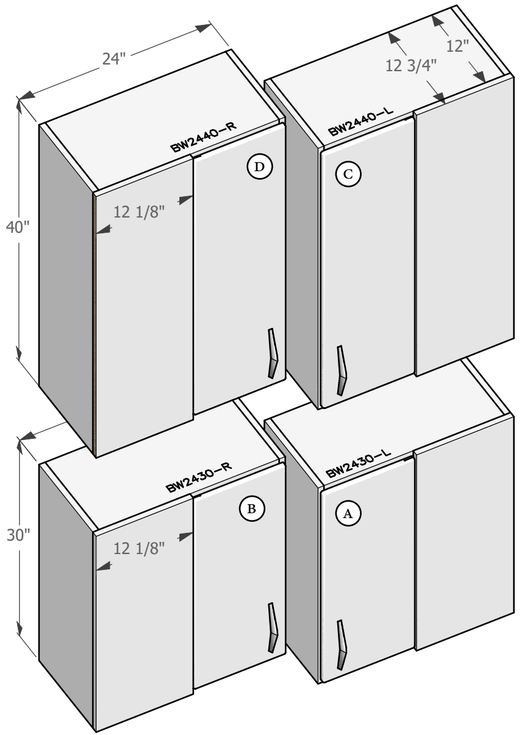

BW2430-L/R 24X30 in | **BW2440-L/R** 24X40 in

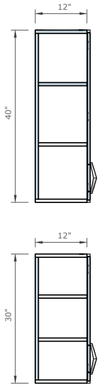

Blind wall cabinets are typically used in the corners of kitchens connecting to another cabinet as it turns the corner. Most of the time they are also ‘pulled’ in one direction, which can adjust the length of the adjacent line of cabinets. Cabinet can be flipped to extend to the right or left.

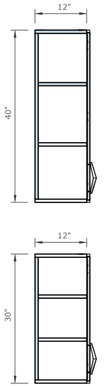

DOORS

A	BW2430 - L
B	BW2430 - R
C	BW2440 - L
D	BW2440 - R

*R & L designations refer to right and left hinge side (not handle side)

*All flat panel doors come standard with BLUMOTION soft-close hinges.

BLIND WALL 30

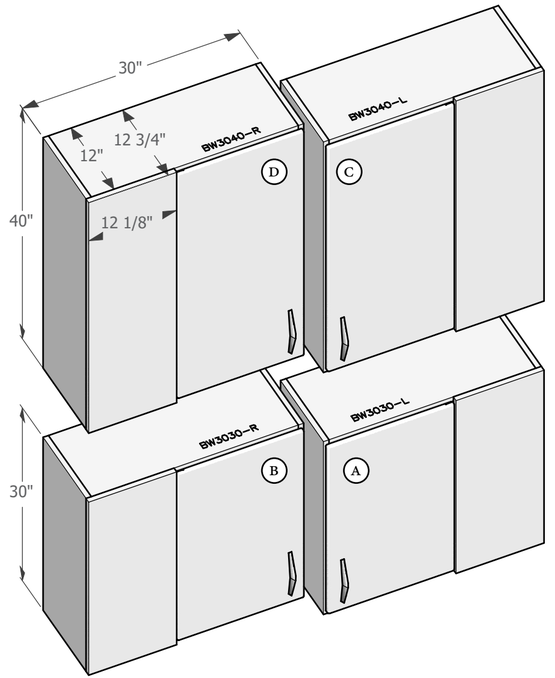

BW3030-L/R 30X30 in | **BW3040-L/R** 30X40 in

Blind wall cabinets are typically used in the corners of kitchens connecting to another cabinet as it turns the corner. Most of the time they are also ‘pulled’ in one direction, which can adjust the length of the adjacent line of cabinets. Cabinet can be flipped to extend to the right or left.

RADIUS WALL

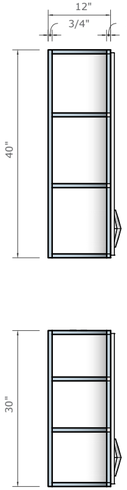

RADW-30-L/R 12X30 in | **RADW-40-L/R** 12X40 in

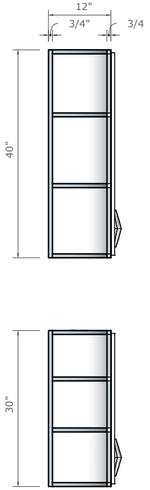

Our radius cabinets are the flagship of the Toro line. Wall Radius cabinets lend a smooth and interesting aesthetic to any space. These roll formed sheet metal doors will make your kitchen stand out with a quiet "pop" that is unique to Toro's metal crafted doors. They are the perfect way to cap an end of a row of upper cabinets also adding a nice taper to a window.

PANELS & FILLERS

UNDER-MOUNT LIGHT RAIL

UMLR

If you choose to have lighting strips placed below the upper wall cabinets, these light rails will hide the strips preventing direct glare while providing a pleasant back-lit glow.

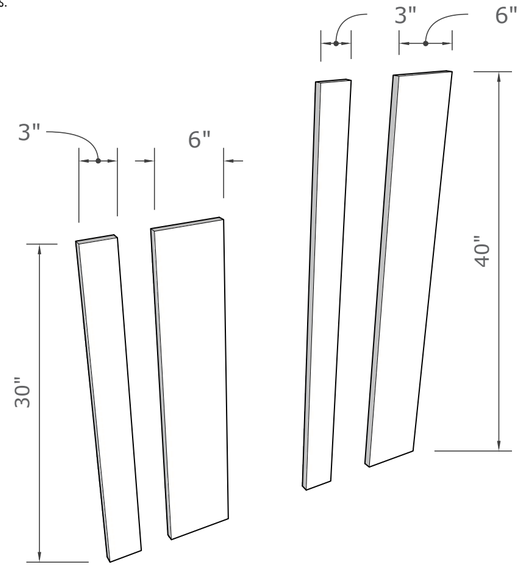

FILLER STICKS

FS330 3X30 | **FS340** 3X40 | **FS630** 6X30 | **FS640** 6X40

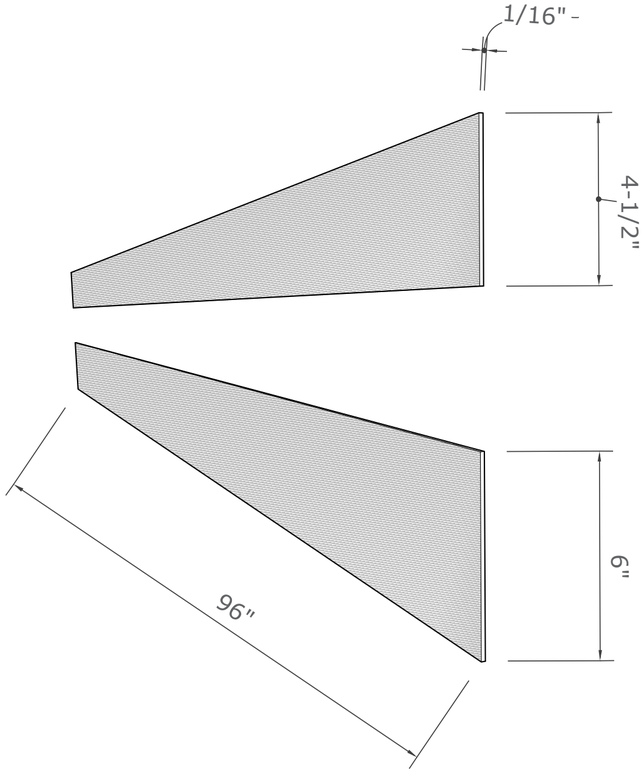

Filler boards and sticks are meant to fill in strategically placed gaps around appliances and between cabinets for a seamless look. Filler sticks will be custom stained to match the wood finish that you choose for your cabinets.

TOE KICK

TK4.5 | TK6

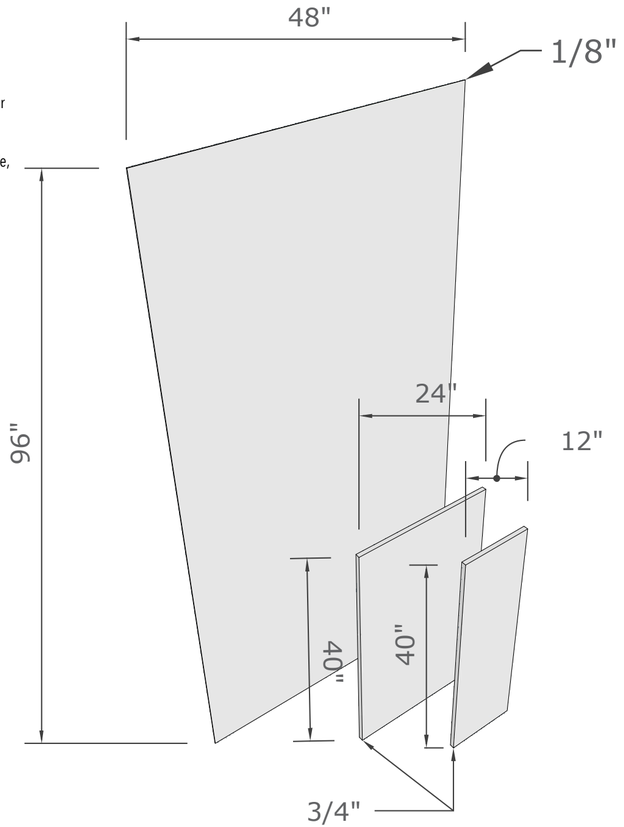

Toe kicks create a seamless look from base cabinets to floor. Toe kicks are also great for hiding unfinished flooring. Toe kicks are not required, there are also leg options to choose from if the desire is to have a continuous floor. Toe kicks are replaceable in case of water damage caused by flood or other unforeseeable event.

LARGE FILLER PANELS

LFP48 48X96 | **LFP24** 24X40 | **LFP12** 12X40

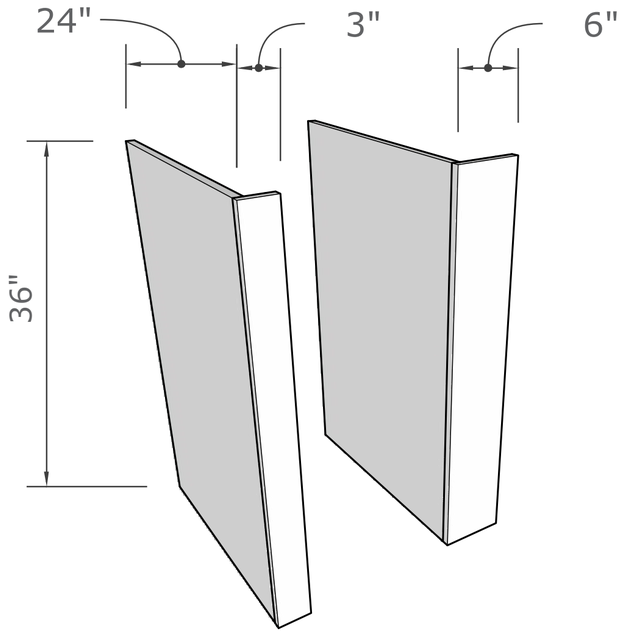

Filler panels are intended to fill large areas and are meant to be used wherever needed as creativity and convenience allows. Filler panels are stained or laminated to match cabinet boxes. If a cabinet is to be exposed on the backside, these filler panels are specifically made to create a beautiful finished look.

DISHWASHER END PANEL

DEP3 3X36 | **DEP6** 6X36

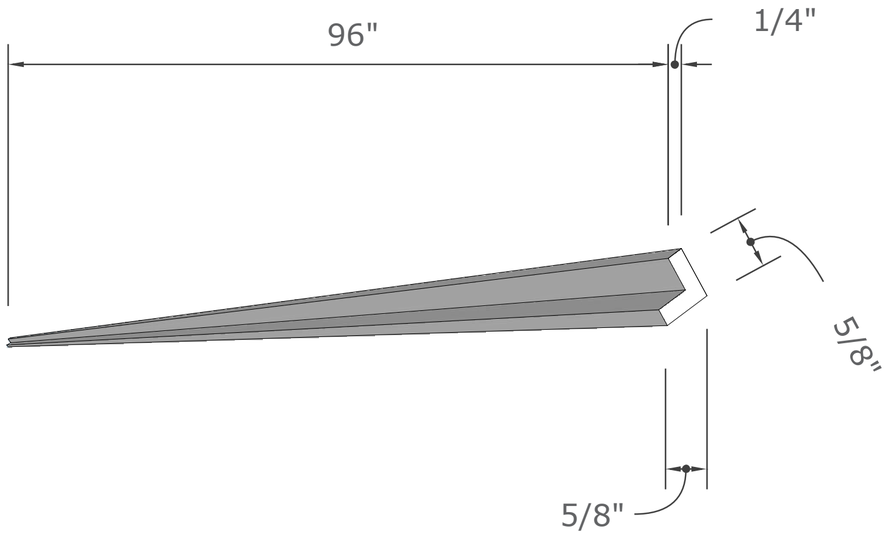

Dishwasher end panels are meant to encase a dishwasher if needed. Typically used if the dishwasher is located at the end of a row of cabinets .

CORNER BEAD

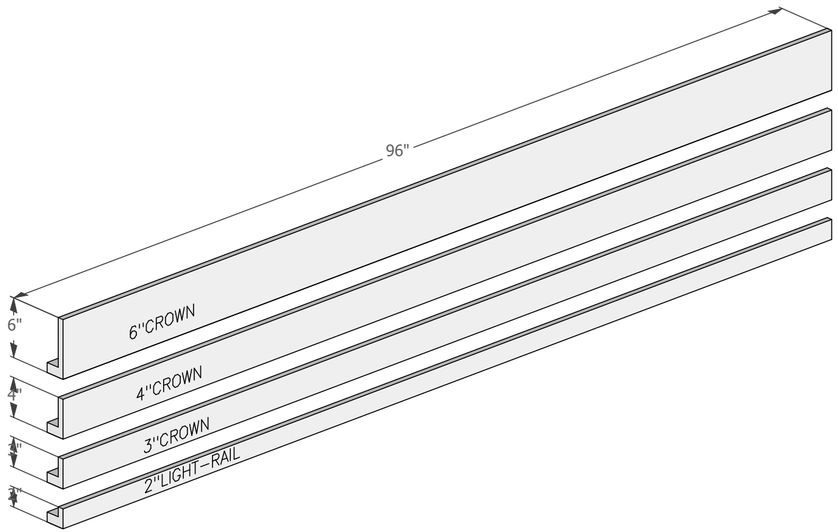

CB625 .625x96

A finishing strip that is placed inside or outside a corner joint to hide seams where cabinets meet.

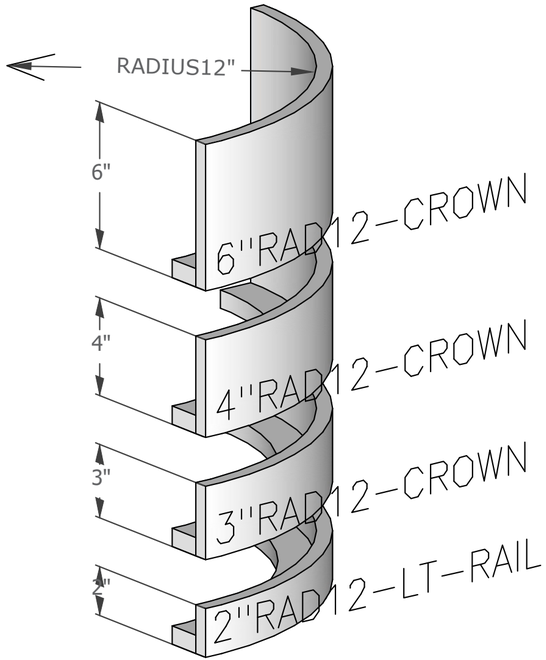

CROWN MOLDING

Crown molding extends from the upper cabinets to the ceiling giving a rich and finished look to your kitchen.

RADIUS CROWN

This is a specialty molding that acts as a crown molding or light rail for the radius cabinet.
